SEED MERCHANTS

"Seeds that Succeed"

WESTERN GROWN NON-IRRIGATED SEEDS

To Our Friends, Our Customers:

It is with pleasure that we send you our Seed Catalogue free for asking. We appreciate the orders you have given us and assure you that all orders, whether large or small, shall have our most careful attention.

ABOUT GUARANTEE. Our seeds are all carefully selected and tested as to vitality. All orders are taken and all shipments are made subject to your being satisfied with the seeds on arrival. You can examine them and have germination tests made. Then if you are not satisfied and will notify us within five days of receipt of shipment we are willing to refund the money paid for them and take the seeds back. We can entertain no claim after five days or after seeds have been planted, as seeds of the best quality often fail through various causes beyond human control; therefore we give no warranty, expressed or implied, as to description, quality, productiveness, or any other matter, of any seeds, bulbs, or plants we send out, and we will not be in any way responsible for the crop. If the pur-

chaser does not accept goods on these terms they are at once to be returned.

ABOUT PRICES. In consideration of the high quality of our seeds our prices are very low.

Seeds by Mail. We will send postpaid all Garden and Flower Seeds at the prices given in the following list, with exception of heavy seeds, as Beans, Peas, Corn, Clover, Grain and grass Seeds. If you order these by mail, be sure to add 5 cents a pound to cover postage in small lots and on larger quantities apply regular parcel post charges.

Seeds Now Go By Parcel Post. Take advantage of this low rate of postage. The rates for the lower zones or up to a distance of 300 miles are very low and you can have your seeds delivered right to your door for less money than it would cost you to drive to town. Your postmaster can give you the rate to your postoffice.

Lists of the Non-irrigated Field Seed

Milo Maize

Selected Seed Maize our Specialty

Remember, in counting the cost of Seed Maize, 100 pounds will plant 35 to 40 acres. The cost per acre for good seed is a little more than mongrel seed. Remember, our Seed is not merely selected, it is bred pure, as seed should be.
